

AI-NATIVE LAUNCHPAD · CHILDCARE

Less paperwork. More time with the children.

An AI-native nursery spots ratio gaps early, keeps families informed and turns daily notes into draft learning records. Educators stay with the children and make every call; AI helps with rotas, messages and admin.

01
Know where to start
Find the AI opportunities that matter most to your business.

02
See it work
Pick one idea and we build a working proof of concept with you.

03
Know what comes next
Get a step-by-step roadmap with timeline, budget and estimated return.

CHILDCARE · WHERE AI HELPS

From today’s problems to AI-native work

THE PROBLEMS TODAY

01

Ratio gaps when staff call in sick

Early-morning sick calls leave managers ringing round for cover before the doors open, with rooms at risk of falling out of ratio.

02

Learning records written at nap time

Educators turn sticky notes and photos into learning journeys during breaks, so records fall behind and quality slips.

03

The same family questions all day long

Pickup changes, fees and "how was her day?" messages pull staff away from the room and get lost between shifts.

WHERE AI CAN HELP

01	**Ratio and cover planning**	See each room’s ratio hour by hour and suggest qualified cover for a manager to confirm.
02	**Quicker learning journeys**	Turn an educator’s short notes and photos into a draft observation they check and approve.
03	**Family message helper**	Answer routine parent questions on fees, hours and policies from your own handbook, any time.
04	**Fees and funding checks**	Spot invoices and funding claims that don’t match attendance before they go out.
05	**Waitlist and place planning**	Match waiting families to open days and upcoming move-ups so fewer places sit empty.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

The 6 a.m. sick call

TODAY

The manager phones staff one by one to find cover before the doors open.

AI-NATIVE

A cover request could go straight to qualified staff who are free, and the manager could confirm the first one to say yes.

Daily updates in minutes

TODAY

Educators type each child’s daily update at the end of a long day.

AI-NATIVE

Short voice notes during the day could become tidy daily updates that the key person checks and sends.

Filling the empty Tuesday place

TODAY

Part-time gaps are spotted late, and the waitlist is checked by hand.

AI-NATIVE

The office could see which part-time days are open next month and which waiting families want exactly those days.

WHAT YOU RECEIVE: 8 DELIVERABLES

01 **AI readiness scorecard**
02 **Opportunity map**
03 **Ranked use cases**
04 **One working proof of concept**
05 **AI-native roadmap**
06 **Budget and ROI model**
07 **AI governance starter kit**
08 **Executive readout**

PROOF OF CONCEPT

You choose the proof of concept

Pick one of our suggested ideas for your industry, or bring your own business problem. We check that it fits the package, agree what success looks like in writing, then build it with you.

Good to know: A proof of concept shows an idea working on real or sample data. It is not a production system; we scope the production version with you as a next step.

LAUNCH · $2,500

Parent questions assistant

An assistant that answers common family questions from your handbook and policies, handing anything sensitive to a member of staff.

SUCCESS MEASURE
Routine questions answered without staff time

ACCELERATE · $7,500

Ratio and cover board

A live ratio view for each room, linked to your rota system, that flags gaps and suggests qualified cover for a manager to confirm.

SUCCESS MEASURE
Time to fill a sick-day gap and hours out of ratio

TRANSFORM · $19,500

Connected nursery office

One view linking rotas, attendance, fees and the waitlist across all your settings, with suggested next steps for managers.

SUCCESS MEASURE
Admin hours per setting and empty places per week

INCLUDED IN EVERY PACKAGE

Any one product, free for 3 months

Pick any live product from the Burdenoff portfolio and use it free for 90 days.

- One product per organisation
- 90 days in a row from activation
- Agreed seats and usage
- No automatic paid renewal
- Export your data at the end

GOOD FITS FOR CHILDCARE

CrewFoundry	Keep staff checks, training records and team updates in one place, ready for inspection.
BuildMyIQ	Give educators short, practical training on new policies and early-years practice.
BotManor	Answer routine family questions from your own handbook, day or night.

ALGOSHRED TECHNOLOGIES

CHILDCARE · THE ROAD AHEAD

Your road to AI-native

STEP ONE: THE LAUNCHPAD

NEXT STEPS WE CAN TAKE TOGETHER

Months count from the end of your Launchpad.

NOW · 3–10 WEEKS

Launchpad

Find where staff time goes, prove one idea with your real routines and agree a costed roadmap.

NEXT · MONTHS 1–3

Roll out the first win

Bring the proven idea into every room, with short training and a named owner in each setting.

THEN · MONTHS 4–9

Connect the office

Link rotas, attendance, fees and the waitlist so managers work from one up-to-date picture.

LATER · MONTHS 10–18

Run AI-native

AI helpers become part of each day, reviewed with staff and improved each month.

> The Launchpad is step one: it shows the real value of going AI-native in your own business. Rolling out, scaling and running AI day to day are later steps. You decide if and when to take them, with us or anyone else.

THE FIRST 100 DAYS

Your package takes 3–10 weeks of this. The rest is your team trying the POC, deciding and preparing, with our 30-day follow-up.

DAYS 1–15

Discover

Talk to your people, measure today's costs and check AI readiness.

DAYS 16–30

Prioritise

Pick the highest-value ideas, review the risks and agree the POC.

DAYS 31–60

Prove

Build and test the proof of concept with your team.

DAYS 61–75

Plan

Finish the roadmap, budget, operating model and estimated return.

DAYS 76–100

Decide

Review results, train owners and choose what to invest in next.

HOW WE MEASURE SUCCESS

- **Hours rooms run out of ratio**
- **Time spent writing learning records**
- **Family questions answered on the first reply**
- **Empty places per week**

HANDLE WITH CARE

- Children's records, photos and health notes are highly sensitive: use them only as parents agreed, limit access and keep them out of public AI tools.
- An educator must review every observation or report about a child before it is shared with a family.
- Safeguarding concerns must go straight to a trained person; AI must not handle them alone.

YOUR PROTECTIONS

- ✓ **Fixed fee for an agreed scope**
- ✓ **Written success criteria for the POC**
- ✓ **A named engagement lead**
- ✓ **Weekly progress updates**
- ✓ **Your data rights written into the contract**
- ✓ **Tool advice based on fit, not on what we sell**
- ✓ **No access to live systems without your approval**
- ✓ **Clear exit and data export at any point**
