ALGOSHRED TECHNOLOGIES

AI-NATIVE LAUNCHPAD · CONSUMER GOODS

Fuller shelves. Quicker batch release. Fewer claim mistakes.

An AI-native consumer goods brand spots likely stock gaps earlier, clears batch paperwork faster and settles promotions without a pile of spreadsheets. People still make the calls; AI does the checking and chasing.

01

Know where to start

Find the AI opportunities that matter most to your business.

02

See it work

Pick one idea and we build a working proof of concept with you.

03

Know what comes next

Get a step-by-step roadmap with timeline, budget and estimated return.

FIXED-FEE PACKAGES

Launch **$2,500**

Accelerate **$7,500**

Transform **$19,500**

CONSUMER GOODS · WHERE AI HELPS

From today's problems to AI-native work

THE PROBLEMS TODAY

01

Batches waiting on paperwork

Finished stock sits on quality hold while records are checked by hand, and the shelf-life clock keeps running.

02

Outlets running out of fast sellers

Orders follow last month's plan, so popular lines go out of stock in some stores while others hold too much.

03

Promotion deductions nobody can match

Retailers take deductions for promotions and the finance team spends weeks matching them to deals and proof.

WHERE AI CAN HELP

01	**Faster batch release**	Pre-check batch records against your checklist so quality staff only review the gaps before signing off.
02	**Demand and stock signals**	Spot outlets and lines heading for a stock-out early, so sales and supply can act in time.
03	**Promotion claim matching**	Match retailer deductions to agreed deals and proof of performance, and flag the ones to dispute.
04	**Label and claim checks**	Check pack designs against the approved claim list before print, with a person giving final approval.
05	**Faster recall tracing**	Trace a suspect ingredient lot to the batches, distributors and outlets it reached, from one search.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

The daily stock-out watchlist

TODAY

Sales reps find empty shelves on their visits and phone the office to rush an order.

AI-NATIVE

Each morning reps could get a short list of outlets likely to run out of key lines, with a suggested order for each.

Sorting a month of retailer deductions

TODAY

Finance staff open each deduction and hunt through emails and deal sheets to see if it is valid.

AI-NATIVE

Deductions could arrive already matched to the deal and proof, with only the unclear ones left for a person to check.

One claim change across every pack

TODAY

The team opens each artwork file by hand to find every place a changed claim appears.

AI-NATIVE

A designer could see every pack, size and language that uses the old wording, ready for review in one list.

WHAT YOU RECEIVE: 8 DELIVERABLES

01 AI readiness scorecard
02 Opportunity map
03 Ranked use cases
04 One working proof of concept
05 AI-native roadmap
06 Budget and ROI model
07 AI governance starter kit
08 Executive readout

PROOF OF CONCEPT

You choose the proof of concept

Pick one of our suggested ideas for your industry, or bring your own business problem. We check that it fits the package, agree what success looks like in writing, then build it with you.

Good to know: A proof of concept shows an idea working on real or sample data. It is not a production system; we scope the production version with you as a next step.

LAUNCH · $2,500

Product and policy assistant

An assistant that answers staff questions from your specs, claim lists and quality procedures, so people stop waiting on one expert.

SUCCESS MEASURE
Time to answer common product and quality questions

ACCELERATE · $7,500

Stock-out early warning for one channel

Alerts built from your order and sales data for one channel or region, sent to sales and supply with the reason behind each one.

SUCCESS MEASURE
Stock-outs on key lines and alert accuracy in one region

TRANSFORM · $19,500

Batch-to-shelf exception desk

One view across quality, supply and finance that flags held batches, stock gaps and disputed deductions, with a next step for each.

SUCCESS MEASURE
Days on quality hold and deductions resolved per month

INCLUDED IN EVERY PACKAGE

Any one product, free for 3 months

Pick any live product from the Burdenoff portfolio and use it free for 90 days.

- One product per organisation
- 90 days in a row from activation
- Agreed seats and usage
- No automatic paid renewal
- Export your data at the end

GOOD FITS FOR CONSUMER GOODS

ManufacturedOps	Run batches, quality checks and release records for consumer products in one place.
MoveTheWheels	Plan orders, stock and deliveries to distributors and outlets, with AI help.
BigConsole	See sell-through, stock and promotion results by channel on one dashboard.

ALGOSHRED TECHNOLOGIES

CONSUMER GOODS · THE ROAD AHEAD

Your road to AI-native

STEP ONE: THE LAUNCHPAD | NEXT STEPS WE CAN TAKE TOGETHER

Months count from the end of your Launchpad.

NOW · 3–10 WEEKS

Launchpad

Map where stock, time and margin leak between plant and shelf, prove one idea on real data and agree a costed roadmap.

NEXT · MONTHS 1–3

Roll out the first win

Take the proven idea into daily use across more lines, sites or regions, with training and clear owners.

THEN · MONTHS 4–9

Connect plant to shelf

Link quality, supply, sales and finance data so every team works from the same picture of stock and demand.

LATER · MONTHS 10–18

Run AI-native

AI helpers become part of daily planning, release and selling, measured and improved each month.

> The Launchpad is step one: it shows the real value of going AI-native in your own business. Rolling out, scaling and running AI day to day are later steps. You decide if and when to take them, with us or anyone else.

THE FIRST 100 DAYS

Your package takes 3–10 weeks of this. The rest is your team trying the POC, deciding and preparing, with our 30-day follow-up.

DAYS 1–15

Discover

Talk to your people, measure today's costs and check AI readiness.

DAYS 16–30

Prioritise

Pick the highest-value ideas, review the risks and agree the POC.

DAYS 31–60

Prove

Build and test the proof of concept with your team.

DAYS 61–75

Plan

Finish the roadmap, budget, operating model and estimated return.

DAYS 76–100

Decide

Review results, train owners and choose what to invest in next.

HOW WE MEASURE SUCCESS

- **Days stock spends on quality hold**
- **Stock-outs on key lines**
- **Time to settle promotion deductions**
- **Time to trace a suspect lot**

HANDLE WITH CARE

- Keep a qualified person in charge of every batch release, recall and food or safety decision.
- Check every product claim and label with a person before it is printed or published.
- Agree what retailer and consumer data can be shared, and keep it out of public AI tools.

YOUR PROTECTIONS

- ✓ **Fixed fee for an agreed scope**
- ✓ **Written success criteria for the POC**
- ✓ **A named engagement lead**
- ✓ **Weekly progress updates**
- ✓ **Your data rights written into the contract**
- ✓ **Tool advice based on fit, not on what we sell**
- ✓ **No access to live systems without your approval**
- ✓ **Clear exit and data export at any point**
