

AI-NATIVE LAUNCHPAD · DATA & ANALYTICS

Fewer ad-hoc requests. Trusted numbers. Faster answers.

An AI-native data team lets people ask simple questions themselves, catches broken data before it reaches a dashboard and knows what every number means. Analysts still own the definitions; AI does the repeat work.

01
Know where to start
Find the AI opportunities that matter most to your business.

02
See it work
Pick one idea and we build a working proof of concept with you.

03
Know what comes next
Get a step-by-step roadmap with timeline, budget and estimated return.

FIXED-FEE PACKAGES

Launch **$2,500** | Accelerate **$7,500** | Transform **$19,500**

DATA & ANALYTICS · WHERE AI HELPS

From today's problems to AI-native work

THE PROBLEMS TODAY

01

Endless quick questions

Analysts lose their days to small one-off requests, so bigger projects and deeper analysis keep slipping.

02

Numbers people do not trust

A missing file or changed rule quietly skews a report, and leaders find out after a decision is made.

03

Costs nobody can trace

Data storage and query bills grow, but nobody can say which reports or teams are driving the spend.

WHERE AI CAN HELP

01	**Self-serve questions**	Let business users ask simple questions in plain words and get answers from approved, trusted data.
02	**Data health alerts**	Spot late, missing or unusual data before it reaches a dashboard, and tell the owner why.
03	**Change impact checks**	Show which reports and teams a changed metric or table will affect before the change goes live.
04	**Plain-language summaries**	Turn dashboards into short weekly notes that explain what moved and why, for analysts to check.
05	**Cost and usage view**	Tie data spend to the reports, queries and teams behind it, so you can see what is worth keeping.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

The question before lunch

TODAY

A manager emails an analyst for a quick number and waits a day or two for a reply.

AI-NATIVE

The manager could ask in plain words and get the number from approved data, with a link to how it was worked out.

A sales dip that is really a missing file

TODAY

Leaders spot a sudden drop, raise the alarm and the team spends hours finding a broken data feed.

AI-NATIVE

The team could get an alert that a feed is late before the dashboard updates, with the affected reports listed.

Changing how a metric is counted

TODAY

Analysts change a definition and hope nobody's report breaks or shifts without warning.

AI-NATIVE

Before the change, analysts could see every report and team affected and the size of the shift, then agree it.

ALGOSHRED TECHNOLOGIES

DATA & ANALYTICS · THREE PACKAGES

Your Launchpad

FIXED FEE, AGREED SCOPE	Launch **$2,500** Small businesses 1–50 employees · 3–4 weeks	MOST POPULAR Accelerate **$7,500** Growing companies 51–500 employees · 5–6 weeks	Transform **$19,500** Larger organisations 501+ employees · 8–10 weeks

EVERY PACKAGE INCLUDES

- AI-native consultancy and roadmap
- One proof of concept you choose
- One Burdenoff product free for 3 months
- Budget and return-on-investment model
- Executive readout

WHAT YOU RECEIVE: 8 DELIVERABLES

01 **AI readiness scorecard**
02 **Opportunity map**
03 **Ranked use cases**
04 **One working proof of concept**
05 **AI-native roadmap**
06 **Budget and ROI model**
07 **AI governance starter kit**
08 **Executive readout**

PROOF OF CONCEPT

You choose the proof of concept

Pick one of our suggested ideas for your industry, or bring your own business problem. We check that it fits the package, agree what success looks like in writing, then build it with you.

Good to know: A proof of concept shows an idea working on real or sample data. It is not a production system; we scope the production version with you as a next step.

LAUNCH · $2,500

Ask-your-data assistant

An assistant that answers common business questions from one approved dataset or report, showing how each answer was found.

SUCCESS MEASURE
Ad-hoc requests answered without an analyst

ACCELERATE · $7,500

Data health alerts on key reports

Checks on the data feeding your most-used reports, alerting owners to late, missing or odd data before people see it.

SUCCESS MEASURE
Data issues caught before they reach a dashboard

TRANSFORM · $19,500

Trusted metrics and cost hub

One place for agreed metric definitions, data health, change impact and spend across teams, with owners for each.

SUCCESS MEASURE
Report errors reaching leaders and data spend per team

INCLUDED IN EVERY PACKAGE

Any one product, free for 3 months

Pick any live product from the Burdenoff portfolio and use it free for 90 days.

- One product per organisation
- 90 days in a row from activation
- Agreed seats and usage
- No automatic paid renewal
- Export your data at the end

GOOD FITS FOR DATA & ANALYTICS

BigConsole	Build dashboards and AI summaries on your business data, so leaders see what moved and why.
FluidGrids	Automate data checks, refreshes and alerts between your tools without heavy code.
BotManor	Answer everyday data questions from your own approved reports and definitions.

ALGOSHRED TECHNOLOGIES

DATA & ANALYTICS · THE ROAD AHEAD

Your road to AI-native

STEP ONE: THE LAUNCHPAD

NEXT STEPS WE CAN TAKE TOGETHER

Months count from the end of your Launchpad.

NOW · 3–10 WEEKS

Launchpad

Map where your data team's time and trust are lost, prove one idea on real data and agree a costed roadmap.

NEXT · MONTHS 1–3

Roll out the first win

Take the proven idea into daily use for more teams and reports, with training and clear owners.

THEN · MONTHS 4–9

Connect the data

Link definitions, data checks, reports and costs so everyone works from the same trusted numbers.

LATER · MONTHS 10–18

Run AI-native

AI helpers become part of how every team asks and answers questions, measured and improved each month.

> The Launchpad is step one: it shows the real value of going AI-native in your own business. Rolling out, scaling and running AI day to day are later steps. You decide if and when to take them, with us or anyone else.

THE FIRST 100 DAYS

Your package takes 3–10 weeks of this. The rest is your team trying the POC, deciding and preparing, with our 30-day follow-up.

DAYS 1–15

Discover

Talk to your people, measure today's costs and check AI readiness.

DAYS 16–30

Prioritise

Pick the highest-value ideas, review the risks and agree the POC.

DAYS 31–60

Prove

Build and test the proof of concept with your team.

DAYS 61–75

Plan

Finish the roadmap, budget, operating model and estimated return.

DAYS 76–100

Decide

Review results, train owners and choose what to invest in next.

HOW WE MEASURE SUCCESS

- **Ad-hoc requests per analyst each week**
- **Data issues caught before reaching users**
- **Time to answer a business question**
- **Data spend tied to an owner**

HANDLE WITH CARE

- Keep personal and customer data protected, and only let AI see data each user is allowed to see.
- Analysts own metric definitions and check AI answers before they inform big decisions.
- Show how each AI answer was worked out, so people can check it before acting on it.

YOUR PROTECTIONS

- ✓ **Fixed fee for an agreed scope**
- ✓ **Written success criteria for the POC**
- ✓ **A named engagement lead**
- ✓ **Weekly progress updates**
- ✓ **Your data rights written into the contract**
- ✓ **Tool advice based on fit, not on what we sell**
- ✓ **No access to live systems without your approval**
- ✓ **Clear exit and data export at any point**
