EDUCATION · WHERE AI HELPS

From today's problems to AI-native work

THE PROBLEMS TODAY

01

Struggling students spotted late

Warning signs sit in attendance, grades and missed work, and the first clear sign is a failed exam or a dropout.

02

Marking that eats evenings

Teachers spend nights and weekends marking and writing feedback, leaving less time to plan and teach.

03

Admin queues at peak times

Enrolment and exam weeks bring floods of the same questions, and students and parents wait on hold.

WHERE AI CAN HELP

01	**Early support alerts**	Flag students who may need help, with the reasons shown, so advisers and teachers can step in early.
02	**Feedback drafts**	Draft feedback on student work against your own marking guide, for the teacher to edit and approve.
03	**Student and parent help desk**	Answer routine questions about enrolment, timetables and fees from your own policies, at any hour.
04	**Lesson and resource planning**	Help teachers adapt lessons, quizzes and materials for different levels, for the teacher to check.
05	**Study support for learners**	Give students a study helper that explains topics and points to course materials, without doing the work for them.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

The quiet student

TODAY

An adviser finds out a student is struggling only after mid-term grades are posted.

AI-NATIVE

A weekly list could show students whose attendance or work has slipped, with the signs, so an adviser can check in.

The essay pile

TODAY

A teacher spends the weekend writing similar comments on dozens of essays.

AI-NATIVE

Draft comments could be ready against the marking guide, and the teacher could edit, add and approve each one.

Enrolment week

TODAY

The admin office answers the same timetable and fee questions all day by phone.

AI-NATIVE

An assistant could answer from the school's own policies, in several languages, and pass tricky cases to staff.
