

AI-NATIVE LAUNCHPAD · FAITH & COMMUNITY

Less admin. More time for your community.

An AI-native community organisation spends less volunteer time on rosters, records and repeated questions. AI keeps the lists tidy and drafts the messages; leaders and volunteers stay in charge of people and care.

01
Know where to start
Find the AI opportunities that matter most to your business.

02
See it work
Pick one idea and we build a working proof of concept with you.

03
Know what comes next
Get a step-by-step roadmap with timeline, budget and estimated return.

FIXED-FEE PACKAGES

FAITH & COMMUNITY · WHERE AI HELPS

From today's problems to AI-native work

THE PROBLEMS TODAY

01

Member records that fall behind

Families move, grow and change contact details, but the records live in old spreadsheets that few people can update.

02

Giving and pledges that don't add up

Gifts for different causes, pledges and year-end statements are matched by hand, so mistakes and late statements creep in.

03

Volunteer rosters held together by phone calls

Kitchen, events and classes rely on a few coordinators ringing round every week to fill gaps.

WHERE AI CAN HELP

01	**Volunteer roster helper**	Suggest who to ask for each open slot based on past availability, and send friendly reminders.
02	**Questions answered any time**	Answer common questions on service times, bookings and events from your own notices and guides.
03	**Tidy giving records**	Match gifts to causes and pledges, flag gaps and prepare statements for a treasurer to check.
04	**One bookings desk**	Handle hall hire, weddings, funerals and festival days in one calendar with clear next steps.
05	**Newsletters and notices drafted**	Turn meeting notes and event details into draft notices, including translations for a fluent member to check.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

Filling the weekend kitchen roster

TODAY

A coordinator spends evenings texting volunteers to cover a busy weekend.

AI-NATIVE

The coordinator could see a suggested roster with backups for each slot, then send all the invitations in one go.

The late-night booking question

TODAY

A family calls the office about a funeral or hall booking and waits for a call back.

AI-NATIVE

The family could get clear first answers any time from your own guides, with a person following up on anything sensitive.

Year-end giving statements

TODAY

The treasurer matches gifts to donors in a spreadsheet over several weekends.

AI-NATIVE

Draft statements could be ready for the treasurer to review, with any unclear gifts listed separately to check.

WHAT YOU RECEIVE: 8 DELIVERABLES

01 **AI readiness scorecard**
02 **Opportunity map**
03 **Ranked use cases**
04 **One working proof of concept**
05 **AI-native roadmap**
06 **Budget and ROI model**
07 **AI governance starter kit**
08 **Executive readout**

PROOF OF CONCEPT

You choose the proof of concept

Pick one of our suggested ideas for your industry, or bring your own business problem. We check that it fits the package, agree what success looks like in writing, then build it with you.

Good to know: A proof of concept shows an idea working on real or sample data. It is not a production system; we scope the production version with you as a next step.

LAUNCH · $2,500

Community questions assistant

An assistant that answers common questions about times, events and bookings from your own notices, handing anything personal to a person.

SUCCESS MEASURE
Repeat questions handled without staff time

ACCELERATE · $7,500

Volunteer roster planner

A roster helper connected to your member or volunteer list that suggests cover for one programme and sends reminders.

SUCCESS MEASURE
Open slots filled and coordinator hours saved

TRANSFORM · $19,500

Joined-up community office

One view across members, giving, bookings, classes and building upkeep, with AI drafting the weekly to-do list for each team.

SUCCESS MEASURE
Admin hours per week and time to answer requests

INCLUDED IN EVERY PACKAGE

Any one product, free for 3 months

Pick any live product from the Burdenoff portfolio and use it free for 90 days.

- One product per organisation
- 90 days in a row from activation
- Agreed seats and usage
- No automatic paid renewal
- Export your data at the end

GOOD FITS FOR FAITH & COMMUNITY

ComradeCircle	Keep members, groups and volunteer teams connected in one private network.
BotManor	Answer common questions about services, events and bookings from your own notices.
EventfullyManaged	Run festival days, classes and gatherings with tickets or sign-up, check-in and attendance figures.

ALGOSHRED TECHNOLOGIES

FAITH & COMMUNITY · THE ROAD AHEAD

Your road to AI-native

STEP ONE: THE LAUNCHPAD

NEXT STEPS WE CAN TAKE TOGETHER

Months count from the end of your Launchpad.

NOW · 3–10 WEEKS

Launchpad

Map where staff and volunteers lose the most time, prove one idea on your real records and agree a simple, costed roadmap.

NEXT · MONTHS 1–3

Roll out the first win

Take the proven idea into regular use, with short training for staff and volunteers and a clear owner.

THEN · MONTHS 4–9

Connect the office

Link members, giving, bookings and volunteer lists so everyone works from the same up-to-date picture.

LATER · MONTHS 10–18

Run AI-native

AI helpers become part of weekly life, reviewed by leaders and improved each month.

> The Launchpad is step one: it shows the real value of going AI-native in your own business. Rolling out, scaling and running AI day to day are later steps. You decide if and when to take them, with us or anyone else.

THE FIRST 100 DAYS

Your package takes 3–10 weeks of this. The rest is your team trying the POC, deciding and preparing, with our 30-day follow-up.

DAYS 1–15

Discover

Talk to your people, measure today's costs and check AI readiness.

DAYS 16–30

Prioritise

Pick the highest-value ideas, review the risks and agree the POC.

DAYS 31–60

Prove

Build and test the proof of concept with your team.

DAYS 61–75

Plan

Finish the roadmap, budget, operating model and estimated return.

DAYS 76–100

Decide

Review results, train owners and choose what to invest in next.

HOW WE MEASURE SUCCESS

- **Volunteer hours spent on admin**
- **Roster gaps filled before the day**
- **Time to send giving statements**
- **Time to answer a community question**

HANDLE WITH CARE

- Treat beliefs, family details and giving as sensitive: limit who sees them and keep them out of public AI tools.
- Keep a person in charge of pastoral care, safeguarding and anything involving children or vulnerable adults.
- Have a trusted person check giving records and statements before they are sent.

YOUR PROTECTIONS

- ✓ **Fixed fee for an agreed scope**
- ✓ **Written success criteria for the POC**
- ✓ **A named engagement lead**
- ✓ **Weekly progress updates**
- ✓ **Your data rights written into the contract**
- ✓ **Tool advice based on fit, not on what we sell**
- ✓ **No access to live systems without your approval**
- ✓ **Clear exit and data export at any point**
