FAMILY & HOME · WHERE AI HELPS

From today's problems to AI-native work

THE PROBLEMS TODAY

01

Bills and subscriptions nobody sees whole

Families pay for services they forgot about, miss renewals and struggle to see where the money goes each month.

02

Home paperwork scattered everywhere

Leases, repairs, warranties and appointments sit across inboxes and drawers, so things are missed until they are urgent.

03

Support that cannot keep up

Family-facing services answer the same questions again and again, and parents wait for simple replies.

WHERE AI CAN HELP

01	**Household money overview**	Gather recurring bills and subscriptions in one list and flag renewals, price rises and duplicates.
02	**Home paperwork organiser**	Read leases, warranties and receipts, pull out key dates and remind the family before they pass.
03	**Friendly family assistant**	Answer common questions from parents and households any time, using your own service information.
04	**Learning support**	Help children practise and give parents a simple view of progress, with teachers still in charge.
05	**Shared family planning**	Turn school, activity and appointment messages into one shared calendar and to-do list.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

The monthly money check-in

TODAY

A parent goes through bank statements line by line to spot forgotten subscriptions.

AI-NATIVE

A family app could send a short monthly summary of recurring costs, with renewals coming up and possible duplicates.

The boiler warranty question

TODAY

When something breaks, the family hunts through emails for the warranty and the installer's number.

AI-NATIVE

A home assistant could find the warranty, show its end date and terms, and draft the message to the installer.

Turning school emails into a plan

TODAY

Parents read long school emails and copy dates into calendars by hand.

AI-NATIVE

A planner could pick out dates, kit and forms from school messages and suggest calendar entries to accept.
