

AI-NATIVE LAUNCHPAD · FOOD & RESTAURANTS

Less waste. Smarter rotas. Food costs you see every day.

An AI-native restaurant or food business sees costs daily, orders and staffs to real demand and catches food-safety issues early. Managers and chefs still make the calls; AI does the counting, watching and admin.

01
Know where to start
Find the AI opportunities that matter most to your business.

02
See it work
Pick one idea and we build a working proof of concept with you.

03
Know what comes next
Get a step-by-step roadmap with timeline, budget and estimated return.

FIXED-FEE PACKAGES

FOOD & RESTAURANTS · WHERE AI HELPS

From today's problems to AI-native work

THE PROBLEMS TODAY

01

Food costs you see too late

Waste, over-portioning and price rises only show up in the month-end numbers, after the money is gone.

02

Rotas built on habit

Shifts are planned on gut feel, so some nights are short-staffed and others pay for idle hours.

03

Food-safety scares

A fridge fails overnight or a supplier recall lands, and staff scramble to check stock across sites.

WHERE AI CAN HELP

01	**Daily food-cost view**	Compare what you should have used with what you bought and sold, every day, by site.
02	**Demand-based ordering and prep**	Suggest order and prep amounts from sales, weather and bookings, so less food is wasted.
03	**Smarter rotas**	Draft shift plans that match expected busy times, for managers to adjust and approve.
04	**Fridge and recall alerts**	Warn staff when fridges drift out of safe range and show which sites hold recalled stock.
05	**Guest reply helper**	Draft replies to reviews and booking messages in your own voice, for staff to send.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

The morning prep list

TODAY

The chef guesses prep amounts from memory and last week's notes.

AI-NATIVE

A prep list could be suggested each morning from bookings, weather and recent sales, for the chef to adjust.

The overnight fridge alert

TODAY

Staff find a warm fridge when they open up and throw out the stock.

AI-NATIVE

The duty manager could get an alert as the fridge starts to drift, with simple steps to save the stock.

The weekly rota, drafted

TODAY

A manager spends hours each week building the rota in a spreadsheet.

AI-NATIVE

A draft rota could match expected busy times and staff availability, ready for the manager to tweak and publish.

FOOD & RESTAURANTS · THREE PACKAGES

Your Launchpad

FIXED FEE, AGREED SCOPE	Launch $2,500 Small businesses 1–50 employees · 3–4 weeks	MOST POPULAR Accelerate $7,500 Growing companies 51–500 employees · 5–6 weeks	Transform $19,500 Larger organisations 501+ employees · 8–10 weeks

- Budget and return-on-investment model
- Executive readout

WHAT YOU RECEIVE: 8 DELIVERABLES

01 AI readiness scorecard
02 Opportunity map
03 Ranked use cases
04 One working proof of concept
05 AI-native roadmap
06 Budget and ROI model
07 AI governance starter kit
08 Executive readout

PROOF OF CONCEPT

You choose the proof of concept

Pick one of our suggested ideas for your industry, or bring your own business problem. We check that it fits the package, agree what success looks like in writing, then build it with you.

Good to know: A proof of concept shows an idea working on real or sample data. It is not a production system; we scope the production version with you as a next step.

LAUNCH · $2,500

Review and message reply helper

An assistant that drafts replies to reviews, bookings and common guest questions in your own voice, for staff to send.

SUCCESS MEASURE
Time to reply to guests and reviews

ACCELERATE · $7,500

Daily food-cost report

A daily cost and waste report connected to your till or stock system for one site, with the main causes listed.

SUCCESS MEASURE
Days taken to spot a food-cost gap at one site

TRANSFORM · $19,500

Multi-site operations desk

One view of sales, food cost, staffing and food safety across sites, suggesting next steps for managers to decide on.

SUCCESS MEASURE
Food waste, labour hours and food-safety incidents

INCLUDED IN EVERY PACKAGE

Any one product, free for 3 months

Pick any live product from the Burdenoff portfolio and use it free for 90 days.

- One product per organisation
- 90 days in a row from activation
- Agreed seats and usage
- No automatic paid renewal
- Export your data at the end

GOOD FITS FOR FOOD & RESTAURANTS

BigConsole	See daily sales, food cost and waste by site on simple dashboards.
FluidGrids	Automate ordering steps, fridge alerts and daily reports with visual workflows.
Kadaikodi	Take online orders with your own menu, checkout and order tracking.

ALGOSHRED TECHNOLOGIES

FOOD & RESTAURANTS · THE ROAD AHEAD

Your road to AI-native

STEP ONE: THE LAUNCHPAD

NEXT STEPS WE CAN TAKE TOGETHER

Months count from the end of your Launchpad.

NOW · 3–10 WEEKS

Launchpad

Map where waste, labour and admin cost you most, prove one idea on real data and agree a costed roadmap.

NEXT · MONTHS 1–3

Roll out the first win

Take the proven idea into daily use across more sites or kitchens, with training and clear owners.

THEN · MONTHS 4–9

Connect the business

Link sales, stock, rotas and food-safety data so every site works from the same numbers.

LATER · MONTHS 10–18

Run AI-native

AI helpers become part of daily service, measured and improved each month.

> The Launchpad is step one: it shows the real value of going AI-native in your own business. Rolling out, scaling and running AI day to day are later steps. You decide if and when to take them, with us or anyone else.

THE FIRST 100 DAYS

Your package takes 3–10 weeks of this. The rest is your team trying the POC, deciding and preparing, with our 30-day follow-up.

DAYS 1–15

Discover

Talk to your people, measure today's costs and check AI readiness.

DAYS 16–30

Prioritise

Pick the highest-value ideas, review the risks and agree the POC.

DAYS 31–60

Prove

Build and test the proof of concept with your team.

DAYS 61–75

Plan

Finish the roadmap, budget, operating model and estimated return.

DAYS 76–100

Decide

Review results, train owners and choose what to invest in next.

HOW WE MEASURE SUCCESS

- **Food waste**
- **Food cost as a share of sales**
- **Labour hours versus busy times**
- **Food-safety issues caught early**

HANDLE WITH CARE

- A trained person confirms any food-safety call, such as throwing out stock or handling a recall.
- Check allergen and nutrition information with a person before it reaches guests.
- Keep guest and staff data private, and agree who can see sales and rota data.

YOUR PROTECTIONS

- ✓ **Fixed fee for an agreed scope**
- ✓ **Written success criteria for the POC**
- ✓ **A named engagement lead**
- ✓ **Weekly progress updates**
- ✓ **Your data rights written into the contract**
- ✓ **Tool advice based on fit, not on what we sell**
- ✓ **No access to live systems without your approval**
- ✓ **Clear exit and data export at any point**
