

AI-NATIVE LAUNCHPAD · IMMIGRATION

Fewer missing documents. Faster files. Calmer clients.

An AI-native immigration practice checks documents as they arrive, keeps clients updated without the chasing and drafts forms for advisers to review. Qualified advisers still give every piece of advice; AI handles the sorting, checking and reminders.

IMMIGRATION · WHERE AI HELPS

From today's problems to AI-native work

THE PROBLEMS TODAY

01

Chasing missing or wrong documents

Files stall for weeks because a document is missing, out of date or the wrong format, found late in the process.

02

Anxious clients asking for updates

Clients call and email for news on their case, pulling advisers away from the work that moves it forward.

03

Retyping the same details

Staff copy names, dates and travel history into long forms by hand, which is slow and invites errors.

WHERE AI CAN HELP

01	**Document pack checks**	Check each upload against the checklist for that visa type and flag what is missing or unclear.
02	**Client update assistant**	Give clients plain answers on where their case stands and what they need to do next, any time.
03	**Form pre-filling**	Fill application forms from the client file so an adviser only needs to check and correct.
04	**Deadline and expiry watch**	Warn the team early about visas, passports and documents nearing expiry or a filing deadline.
05	**Multi-language intake**	Collect client details in their own language and turn them into a tidy file for the adviser.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

Spotting gaps as documents arrive

TODAY

A caseworker opens every upload by hand to see if anything is missing.

AI-NATIVE

Each upload could be checked against the visa checklist, and the client could be told at once what is still needed.

Where is my case?

TODAY

Clients email weekly for updates and wait days for a reply.

AI-NATIVE

A client could ask an assistant in their own language and get a plain update drawn from the case file.

A first draft of the application

TODAY

Staff retype client details into a long form, line by line.

AI-NATIVE

A draft form could be filled from the client file, with gaps highlighted, ready for an adviser to check.

PROOF OF CONCEPT

You choose the proof of concept

Pick one of our suggested ideas for your industry, or bring your own business problem. We check that it fits the package, agree what success looks like in writing, then build it with you.

Good to know: A proof of concept shows an idea working on real or sample data. It is not a production system; we scope the production version with you as a next step.

IMMIGRATION · THE ROAD AHEAD

Your road to AI-native

STEP ONE: THE LAUNCHPAD

NEXT STEPS WE CAN TAKE TOGETHER

Months count from the end of your Launchpad.

NOW · 3–10 WEEKS

Launchpad

Map where your cases lose time, prove one idea on real files and agree a costed roadmap.

NEXT · MONTHS 1–3

Roll out the first win

Put the proven idea into daily use for more visa types, with training and clear owners.

THEN · MONTHS 4–9

Connect the practice

Link intake, documents, case files and billing so advisers and clients see the same picture.

LATER · MONTHS 10–18

Run AI-native

Make AI helpers part of daily intake, document checks and client updates, measured and improved each month.

> The Launchpad is step one: it shows the real value of going AI-native in your own business. Rolling out, scaling and running AI day to day are later steps. You decide if and when to take them, with us or anyone else.

THE FIRST 100 DAYS

Your package takes 3–10 weeks of this. The rest is your team trying the POC, deciding and preparing, with our 30-day follow-up.

DAYS 1–15

Discover

Talk to your people, measure today's costs and check AI readiness.

DAYS 16–30

Prioritise

Pick the highest-value ideas, review the risks and agree the POC.

DAYS 31–60

Prove

Build and test the proof of concept with your team.

DAYS 61–75

Plan

Finish the roadmap, budget, operating model and estimated return.

DAYS 76–100

Decide

Review results, train owners and choose what to invest in next.

HOW WE MEASURE SUCCESS

- **Days to a complete document pack**
- **Client update calls and emails**
- **Applications sent back for errors**
- **Adviser hours per case**

HANDLE WITH CARE

- A qualified adviser, licensed where your country requires it, reviews every form, letter and piece of advice before it is sent.
- Passports and personal records are highly sensitive: keep them private, encrypted and out of public AI tools.
- Make clear the assistant gives updates, not legal advice, and does not predict a client's chances of approval.

YOUR PROTECTIONS

- ✓ **Fixed fee for an agreed scope**
- ✓ **Written success criteria for the POC**
- ✓ **A named engagement lead**
- ✓ **Weekly progress updates**
- ✓ **Your data rights written into the contract**
- ✓ **Tool advice based on fit, not on what we sell**
- ✓ **No access to live systems without your approval**
- ✓ **Clear exit and data export at any point**
