

AI-NATIVE LAUNCHPAD · PUBLIC SAFETY

Less admin. Crews ready. Faster answers for the public.

An AI-native service spots staffing and vehicle gaps before the shift, gets the right information to crews and frees call-takers from routine questions. Trained people make every response decision; AI helps with checks and paperwork.

01
Know where to start
Find the AI opportunities that matter most to your business.

02
See it work
Pick one idea and we build a working proof of concept with you.

03
Know what comes next
Get a step-by-step roadmap with timeline, budget and estimated return.

PUBLIC SAFETY · WHERE AI HELPS

From today's problems to AI-native work

THE PROBLEMS TODAY

01

Shifts short of qualified people

Sick calls and expiring certificates leave seats empty, and supervisors rebuild the roster by phone before each shift.

02

Vehicles and kit out of service

A vehicle off the road or a failed check can be missed by dispatch, so the wrong unit can be sent.

03

Reviews rebuilt from memory

After-action reports are pieced together weeks later from radio logs, notes and recollection, so lessons are lost.

WHERE AI CAN HELP

01	**Roster and skills cover**	Flag seats that need a qualified person and suggest who can cover before the shift starts.
02	**Vehicle and kit readiness**	Turn daily checks and defect notes into a clear ready / not ready view for each vehicle.
03	**Routine enquiry helper**	Answer non-emergency questions online, pointing emergencies to the emergency number, so phone lines stay free.
04	**Faster incident reports**	Draft after-action summaries from logs and notes for officers to check, correct and sign off.
05	**Certificate expiry watch**	Warn staff and managers early about training and licences that are about to lapse.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

The shift-change readiness brief

TODAY

Officers check rosters, vehicle logs and emails to see what's ready for the next shift.

AI-NATIVE

A one-page brief could show staffing gaps, vehicles off the road and expiring certificates for each station.

Premises notes for crews en route

TODAY

Building notes sit in binders or old files that crews rarely see on the way.

AI-NATIVE

Crews could get a short summary of known hazards and access notes for the address, drawn from your own dated records.

After-action reports in days, not weeks

TODAY

An officer spends days pulling logs and notes together after a major incident.

AI-NATIVE

A first draft timeline could be ready from logs and notes, for the officer to correct and complete.

- One Burdenoff product free for 3 months
- Budget and return-on-investment model
- Executive readout

WHAT YOU RECEIVE: 8 DELIVERABLES

01 AI readiness scorecard
02 Opportunity map
03 Ranked use cases
04 One working proof of concept
05 AI-native roadmap
06 Budget and ROI model
07 AI governance starter kit
08 Executive readout

PROOF OF CONCEPT

You choose the proof of concept

Pick one of our suggested ideas for your industry, or bring your own business problem. We check that it fits the package, agree what success looks like in writing, then build it with you.

Good to know: A proof of concept shows an idea working on real or sample data. It is not a production system; we scope the production version with you as a next step.

LAUNCH · $2,500

Policy and procedure assistant

An assistant that answers staff questions from your own procedures and guidance, showing the source for every answer.

SUCCESS MEASURE
Time to find the right procedure

ACCELERATE · $7,500

Roster and certificate board

A board linked to your rostering system that flags unqualified seats and expiring certificates for one station or team.

SUCCESS MEASURE
Shifts starting fully qualified and late cover calls

TRANSFORM · $19,500

Service-wide readiness view

One view across stations combining staffing, vehicle and kit readiness, with suggested actions for duty officers.

SUCCESS MEASURE
Units ready at shift change and time spent checking

INCLUDED IN EVERY PACKAGE

Any one product, free for 3 months

Pick any live product from the Burdenoff portfolio and use it free for 90 days.

- One product per organisation
- 90 days in a row from activation
- Agreed seats and usage
- No automatic paid renewal
- Export your data at the end

GOOD FITS FOR PUBLIC SAFETY

CrewFoundry	Keep training records, certificates and staff updates in one place for every station and team.
AssetHandler	Track vehicles, equipment checks and repairs with a full history for each unit.
BuildMyIQ	Deliver refresher training and track who has completed it ahead of renewals.

ALGOSHRED TECHNOLOGIES

PUBLIC SAFETY · THE ROAD AHEAD

Your road to AI-native

STEP ONE: THE LAUNCHPAD

NEXT STEPS WE CAN TAKE TOGETHER

Months count from the end of your Launchpad.

NOW · 3–10 WEEKS

Launchpad

Map where officer and crew time goes, prove one idea on real records and agree a costed roadmap.

NEXT · MONTHS 1–3

Roll out the first win

Take the proven idea to more stations or teams, with training and a named owner for each.

THEN · MONTHS 4–9

Connect the service

Link rostering, vehicle, training and incident records so every officer works from one picture.

LATER · MONTHS 10–18

Run AI-native

AI becomes part of shift planning and reporting, reviewed by senior officers and improved each month.

> The Launchpad is step one: it shows the real value of going AI-native in your own business. Rolling out, scaling and running AI day to day are later steps. You decide if and when to take them, with us or anyone else.

THE FIRST 100 DAYS

Your package takes 3–10 weeks of this. The rest is your team trying the POC, deciding and preparing, with our 30-day follow-up.

DAYS 1–15

Discover

Talk to your people, measure today's costs and check AI readiness.

DAYS 16–30

Prioritise

Pick the highest-value ideas, review the risks and agree the POC.

DAYS 31–60

Prove

Build and test the proof of concept with your team.

DAYS 61–75

Plan

Finish the roadmap, budget, operating model and estimated return.

DAYS 76–100

Decide

Review results, train owners and choose what to invest in next.

HOW WE MEASURE SUCCESS

- **Shifts starting fully staffed and qualified**
- **Vehicles ready at shift change**
- **Time to complete an after-action report**
- **Non-emergency enquiries answered online**

HANDLE WITH CARE

- Trained people make every dispatch, response and enforcement decision; AI only prepares information and is not used to profile individuals.
- Incident, caller and patient details are sensitive: limit access, keep audit logs and keep them out of public AI tools.
- Test any new tool away from live operations first, with a clear fallback if it fails.

YOUR PROTECTIONS

- ✓ **Fixed fee for an agreed scope**
- ✓ **Written success criteria for the POC**
- ✓ **A named engagement lead**
- ✓ **Weekly progress updates**
- ✓ **Your data rights written into the contract**
- ✓ **Tool advice based on fit, not on what we sell**
- ✓ **No access to live systems without your approval**
- ✓ **Clear exit and data export at any point**
