

AI-NATIVE LAUNCHPAD · TRAVEL & HOSPITALITY

Happier guests. Fewer late-night messages. Fuller rooms.

An AI-native hotel or travel business answers guests at any hour, keeps rooms, rotas and repairs in step and prices with a clear view of demand. Your people still make the welcome; AI does the replying, planning and paperwork.

01

Know where to start

Find the AI opportunities that matter most to your business.

02

See it work

Pick one idea and we build a working proof of concept with you.

03

Know what comes next

Get a step-by-step roadmap with timeline, budget and estimated return.

FIXED-FEE PACKAGES

Launch **$2,500**

Accelerate **$7,500**

Transform **$19,500**

TRAVEL & HOSPITALITY · WHERE AI HELPS

From today's problems to AI-native work

THE PROBLEMS TODAY

01

Guest messages that pile up overnight

Questions about check-in, transfers and requests arrive at all hours, and the morning team starts behind.

02

Broken rooms still on sale

A room needs a repair but stays bookable, so guests arrive to a problem and staff scramble to move them.

03

Rotas that don't match the week ahead

Staff and guide schedules are built by hand and miss busy days, languages or skills that guests need.

WHERE AI CAN HELP

01	**Guest messaging assistant**	Answer common guest questions any time, in their language, and pass special requests to staff.
02	**Rooms and repairs in step**	Link housekeeping and repair jobs to room status, so rooms that are not ready are not sold.
03	**Smarter staff rotas**	Suggest rotas from bookings, events and staff skills, for a manager to adjust and approve.
04	**Pricing with a clear view of demand**	Highlight busy dates, local events and slow periods so managers can set rates with confidence.
05	**Review and feedback insights**	Sum up guest reviews and surveys into the top things to fix and praise each week.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

The midnight guest question

TODAY

A guest asks about late check-in at night and waits until morning for an answer.

AI-NATIVE

An assistant could reply in the guest's language within minutes, from the property's own rules, and flag requests for staff.

The morning property brief

TODAY

The duty manager pieces together arrivals, repairs and complaints from several systems.

AI-NATIVE

A one-page brief could list VIP arrivals, rooms not ready and open complaints, so the team starts the day aligned.

Planning for a festival weekend

TODAY

Managers guess staffing and rates for big local events from memory.

AI-NATIVE

Managers could see suggested rotas and rate options based on bookings and past events, and choose what fits.

TRAVEL & HOSPITALITY · THREE PACKAGES

Your Launchpad

FIXED FEE, AGREED SCOPE	Launch	Accelerate (MOST POPULAR)	Transform
	$2,500	**$7,500**	**$19,500**

- ✓ Budget and return-on-investment model
- ✓ Executive readout

WHAT YOU RECEIVE: 8 DELIVERABLES

01 **AI readiness scorecard**
02 **Opportunity map**
03 **Ranked use cases**
04 **One working proof of concept**
05 **AI-native roadmap**
06 **Budget and ROI model**
07 **AI governance starter kit**
08 **Executive readout**

PROOF OF CONCEPT

You choose the proof of concept

Pick one of our suggested ideas for your industry, or bring your own business problem. We check that it fits the package, agree what success looks like in writing, then build it with you.

Good to know: A proof of concept shows an idea working on real or sample data. It is not a production system; we scope the production version with you as a next step.

LAUNCH · $2,500

Guest question assistant

An assistant that answers common guest questions from your own house rules and FAQs, in several languages, and passes requests to staff.

SUCCESS MEASURE
Share of guest questions answered without staff time

ACCELERATE · $7,500

Room readiness alerts

Alerts connected to your booking or property system that flag rooms with open repairs or cleaning before they are sold or assigned.

SUCCESS MEASURE
Guest room moves and complaints about room condition

TRANSFORM · $19,500

Portfolio operations view

One view across properties that brings together bookings, staffing, repairs and reviews, and flags what needs attention first.

SUCCESS MEASURE
Time to prepare the weekly operations report, and guest review scores

INCLUDED IN EVERY PACKAGE

Any one product, free for 3 months

Pick any live product from the Burdenoff portfolio and use it free for 90 days.

- One product per organisation
- 90 days in a row from activation
- Agreed seats and usage
- No automatic paid renewal
- Export your data at the end

GOOD FITS FOR TRAVEL & HOSPITALITY

GGNomad	Run bookings, rooms and guest stays across your properties in one place.
AssetHandler	Log room repairs and maintenance as work orders, with a clear history for each room.
BotManor	Give guests an assistant that answers from your own house rules and local tips.

TRAVEL & HOSPITALITY · THE ROAD AHEAD

Your road to AI-native

STEP ONE: THE LAUNCHPAD

NEXT STEPS WE CAN TAKE TOGETHER

Months count from the end of your Launchpad.

NOW · 3–10 WEEKS

Launchpad

Map where guest experience and staff time suffer, prove one idea on real bookings and agree a costed roadmap.

NEXT · MONTHS 1–3

Roll out the first win

Put the proven idea into daily use across shifts or properties, with training and clear owners.

THEN · MONTHS 4–9

Connect the property

Link bookings, housekeeping, repairs and staffing so front desk and back office share one picture.

LATER · MONTHS 10–18

Run AI-native

AI helpers become part of daily guest service and shift planning, measured and improved each month.

> The Launchpad is step one: it shows the real value of going AI-native in your own business. Rolling out, scaling and running AI day to day are later steps. You decide if and when to take them, with us or anyone else.

THE FIRST 100 DAYS

Your package takes 3–10 weeks of this. The rest is your team trying the POC, deciding and preparing, with our 30-day follow-up.

DAYS 1–15

Discover

Talk to your people, measure today's costs and check AI readiness.

DAYS 16–30

Prioritise

Pick the highest-value ideas, review the risks and agree the POC.

DAYS 31–60

Prove

Build and test the proof of concept with your team.

DAYS 61–75

Plan

Finish the roadmap, budget, operating model and estimated return.

DAYS 76–100

Decide

Review results, train owners and choose what to invest in next.

HOW WE MEASURE SUCCESS

- **Guest reply time**
- **Rooms sold while not ready**
- **Guest review scores**
- **Hours spent building rotas**

HANDLE WITH CARE

- Protect guest identity, passport, payment and travel details, and keep them out of public AI tools.
- Have a person handle complaints, refunds and any guest safety or medical issue.
- Keep rates and offers fair and clear, with a manager approving any price change.

YOUR PROTECTIONS

- ✓ **Fixed fee for an agreed scope**
- ✓ **Written success criteria for the POC**
- ✓ **A named engagement lead**
- ✓ **Weekly progress updates**
- ✓ **Your data rights written into the contract**
- ✓ **Tool advice based on fit, not on what we sell**
- ✓ **No access to live systems without your approval**
- ✓ **Clear exit and data export at any point**
