

AI-NATIVE LAUNCHPAD · ANY BUSINESS

Less busywork. Faster answers. Clearer decisions.

An AI-native business builds AI into everyday work: answering customers, handling paperwork, finding information and planning ahead. People stay in charge of the decisions; AI takes on the repetitive work around them.

01
Know where to start
Find the AI opportunities that matter most to your business.

02
See it work
Pick one idea and we build a working proof of concept with you.

03
Know what comes next
Get a step-by-step roadmap with timeline, budget and estimated return.

FIXED-FEE PACKAGES

Launch **$2,500** | Accelerate **$7,500** | Transform **$19,500**

Algoshred Technologies Pvt. Ltd.

WHY GO AI-NATIVE

From AI ambition to a proven first step.

You don't need to figure out AI on your own. We help you find where it matters, prove one idea in your business, and give you a clear, costed plan to move forward.

THREE THINGS YOU GET

01

Know where to start

Find the AI opportunities that matter most to your business.

02

See it work

Pick one idea and we build a working proof of concept with you.

03

Know what comes next

Get a step-by-step roadmap with timeline, budget and estimated return.

STEP ONE: THE LAUNCHPAD

NOW · 3–10 WEEKS

Launchpad

Find where AI helps most, prove one idea in your business and agree a costed roadmap.

NEXT STEPS WE CAN TAKE TOGETHER

Months count from the end of your Launchpad.

NEXT · MONTHS 1–3

Roll out the first win

Put the proven idea into daily use, train the team and track the results.

THEN · MONTHS 4–9

Connect the business

Link your key tools and data so each team works from the same, current picture.

LATER · MONTHS 10–18

Run AI-native

AI helpers become part of everyday work in every team, measured and improved each month.

> The Launchpad is step one: it shows the real value of going AI-native in your own business. Rolling out, scaling and running AI day to day are later steps. You decide if and when to take them, with us or anyone else.

THE FIRST 100 DAYS

Your package takes 3–10 weeks of this. The rest is your team trying the POC, deciding and preparing, with our 30-day follow-up.

DAYS 1–15

Discover

Talk to your people, measure today's costs and check AI readiness.

DAYS 16–30

Prioritise

Pick the highest-value ideas, review the risks and agree the POC.

DAYS 31–60

Prove

Build and test the proof of concept with your team.

DAYS 61–75

Plan

Finish the roadmap, budget, operating model and estimated return.

DAYS 76–100

Decide

Review results, train owners and choose what to invest in next.

HOW WE MEASURE SUCCESS

- **Hours spent on repetitive tasks**
- **Time to answer a customer**
- **Errors and rework in admin work**
- **Time to get a clear business report**

HANDLE WITH CARE

- Agree which data AI can use, and keep customer and staff details out of public AI tools.
- Keep a person responsible for decisions about money, people and customers.
- Check AI answers regularly and give staff an easy way to flag mistakes.

WHERE AI HELPS

Where AI helps across your business

SOUND FAMILIAR?

01

Too much time on repetitive admin

Skilled people spend hours copying data, chasing approvals and writing the same emails instead of the work that grows the business.

02

Answers buried in inboxes and folders

Staff and customers wait while someone hunts for the right document, price or policy, and the same questions come up again and again.

03

Decisions made on gut feel

Reports arrive late or not at all, so owners plan from memory and spreadsheets rather than a clear, current view of the business.

WHERE AI CAN HELP, TEAM BY TEAM

01	**Operations: fewer manual steps**	Hand routine tasks such as data entry, scheduling and status updates to AI, with a person checking the exceptions.
02	**Customer service: faster replies**	Answer common questions at any hour from your own policies, and pass anything tricky to your team with the full context.
03	**Sales & marketing: better follow-up**	Draft proposals, emails and posts in your own voice, and see which leads and customers need attention next.
04	**Finance & admin: less paperwork**	Read invoices, receipts and forms, match them to your records and flag anything that looks wrong for a person to review.
05	**People & knowledge: answers on tap**	Give staff one place to ask how things are done, drawn from your own documents, so new joiners get up to speed sooner.

FOR INSPIRATION

AI-native ideas to get you thinking

Examples only, to show what AI-native work can look like. They are not part of the package scope or a promise of what we will build; your POC is agreed with you.

The inbox that sorts itself

TODAY

Someone reads every email and forwards it to the right person by hand.

AI-NATIVE

Each message could be tagged, routed and given a suggested reply, so the team starts the day with only what needs them.

Month-end without the scramble

TODAY

Finance chases receipts and matches invoices line by line for days.

AI-NATIVE

AI could match most items as they arrive and leave a short list of mismatches for a person to check.

A weekly business brief

TODAY

The owner pulls numbers from several tools to see how the week went.

AI-NATIVE

Every Monday a plain-English brief could sum up sales, costs and open issues, with the questions worth asking.

AI-NATIVE LAUNCHPAD · THREE PACKAGES

Pick the package that fits

Fixed fees in US dollars. Taxes and third-party usage (for example AI model or cloud charges) are extra and always agreed in writing first.

FIXED FEE, AGREED SCOPE	Launch	Accelerate (MOST POPULAR)	Transform
	$2,500	**$7,500**	**$19,500**
	Small businesses	Growing companies	Larger organisations
	1–50 employees · 3–4 weeks	51–500 employees · 5–6 weeks	501+ employees · 8–10 weeks
	A focused start for owner-led teams that want one clear win and a simple plan.	For growing companies ready to connect AI to the tools and teams they already use.	For larger organisations that need a business-wide plan, governance and an advanced POC.
Teams we work with	1 team	3 teams	6 teams
AI opportunities assessed	Up to 5	Up to 10	Up to 20
Working proof of concept	1 simple POC	1 connected POC	1 advanced POC
AI-native roadmap	6-month plan	12-month plan	18-month plan
Team training	1 session	2 sessions	4 sessions
Follow-up review	30 days after	30 days after	30 days after

EVERY PACKAGE INCLUDES

- ✓ AI-native consultancy and roadmap
- ✓ One proof of concept you choose
- ✓ One Burdenoff product free for 3 months
- ✓ Budget and return-on-investment model
- ✓ Executive readout

WHAT YOU RECEIVE: 8 DELIVERABLES

01
AI readiness scorecard
How ready you are today across people, processes, data, technology and security.

02
Opportunity map
Where AI can save time, cut cost, improve service or grow revenue.

03
Ranked use cases
Ideas ranked by business value, effort and risk, so you know what to do first.

04
One working proof of concept
The idea you pick, built and shown working on sample or approved business data.

05
AI-native roadmap
Every step with owners, timeline, dependencies and milestones.

06
Budget and ROI model
Build and running costs, payback and benefits in cautious, expected and best-case views.

07
AI governance starter kit
Simple rules for safe use, data handling, human sign-off and accountability.

08
Executive readout
A short, decision-ready session: what we learned and what to do next.

PROVE IT, THEN USE IT

You choose the proof of concept

Pick one of our suggested ideas for your industry, or bring your own business problem. We check that it fits the package, agree what success looks like in writing, then build it with you.

Good to know: A proof of concept shows an idea working on real or sample data. It is not a production system; we scope the production version with you as a next step.

LAUNCH · $2,500

Customer question assistant

An assistant that answers common customer or staff questions from your own documents, and hands over to a person when it is unsure.

SUCCESS MEASURE
Common questions answered correctly and time saved

ACCELERATE · $7,500

Connected document workflow

A workflow that reads incoming orders or invoices, checks them against the systems you already use and sends exceptions to the right person.

SUCCESS MEASURE
Handling time per document and errors caught

TRANSFORM · $19,500

Business-wide insight and action desk

One view that pulls data from several teams, spots problems early and suggests the next step, with an owner signing off each action.

SUCCESS MEASURE
Time to spot and act on issues across teams

INCLUDED IN EVERY PACKAGE

Any one product, free for 3 months

Pick any live product from the Burdenoff portfolio and use it free for 90 days.

- One product per organisation
- 90 days in a row from activation
- Agreed seats and usage
- No automatic paid renewal
- Export your data at the end

POPULAR PICKS

FluidGrids
Automate routine work across your tools with visual, AI-powered workflows.

BotManor
Give customers and staff an AI assistant trained on your own knowledge.

BigConsole
See your numbers in one place, with AI that explains what changed and why.

EVERY ELIGIBLE PRODUCT (37)

Workspaces	Projects, chat, files and workflows in one team workspace
BotManor	AI assistants trained on your own knowledge
VibeControls	Developer environments and AI coding agents, managed
AdapterCloud	One control plane for clouds, on-prem and edge
LabsOfScience	Experiments, datasets and protocols in one record
Subscriber Bot	Track and control recurring subscriptions
AssetHandler	Assets, work orders and audit trails
PlanMagnet	Projects and product roadmaps with AI
MoveTheWheels	Orders, inventory and transport, optimised with AI
TheGlobalFuel	Fuel, resource and mineral operations with ESG
EcoImpactHub	Environmental impact and ESG tracking
CoolAndLovely	Fashion storefronts, lookbooks and AI styling
EventfullyManaged	Ticketing, check-in and event analytics
GGNomad	Bookings and property management for travel
ProServiceWorld	Run and grow a professional services business
BrainyRich	AI wealth assistant and financial planning
TheCulturePost	Cultural content and community
CollabKin	A private home for family stories and history
AthleteBridge	Training, teams, leagues and fan engagement
FluidGrids	Visual, AI-powered workflow automation
BigConsole	Dashboards and AI insights on your business data
IntelWatchtower	Monitoring, intelligence and threat detection
CosmicIntersection	Connect systems and data across platforms
GovCitizenHub	Public services and citizen engagement
BuildMyIQ	Learning management with an AI teaching assistant
CrewFoundry	Hiring, HR, learning and internal comms
TimeCampus	Automatic, privacy-first time intelligence
ManufacturedOps	Manufacturing operations for growing plants
Healthy Bowl	Farming, crops and agri-food in one place
Kadaikodi	Cart, checkout, catalogue and orders for any storefront
HeadshotMarketing	Campaigns, social, ads and CRM in one place
TechnoSpam	Tech learning, mentoring and hackathons
HousingVista	Property and housing management
MyBodyShield	Health tracking and wellness management
ArtistryBase	Creative collaboration with an AI assistant
HookMovies	Streaming and creator tools in every language
ComradeCircle	Professional communities and member networks

NEXT STEPS

From first call to AI-native

THE PATH

STEP 1
Free consultation
A 30-minute call about your business.

STEP 2
AI-Native Launchpad
Assess, prioritise and prove one idea.

STEP 3
Implementation
Roll out the ideas that earned it.

STEP 4
Ongoing partnership
Improve, monitor and scale AI across the business.

ILLUSTRATIVE EXAMPLE ONLY

What could time saved be worth?

15 people each save 4 hours a week. At $30 an hour, if 50% of that time goes into more valuable work over 52 weeks, the time is worth about $46,800 a year.

Value potential only: fees, software and running costs come off it before anything is called a return. Return estimates are scenarios built from your own numbers with the assumptions written down. They are not guarantees.

$46,800
a year of time value in this example, about $3,900 a month. Your own numbers will differ.

YOUR PROTECTIONS

- ✓ **Fixed fee for an agreed scope**
- ✓ **Written success criteria for the POC**
- ✓ **A named engagement lead**
- ✓ **Weekly progress updates**
- ✓ **Your data rights written into the contract**
- ✓ **Tool advice based on fit, not on what we sell**
- ✓ **No access to live systems without your approval**
- ✓ **Clear exit and data export at any point**

QUESTIONS WE ARE OFTEN ASKED

Is the price really fixed?
Yes, for the agreed scope. Taxes and third-party usage such as AI model or cloud charges are extra, and we agree them in writing before anything is spent.

Can we choose our own proof of concept?
Yes. Pick one of the ideas for your industry or bring your own problem. We confirm it fits the package and agree the success criteria in writing.

Do we have to buy anything after the Launchpad?
No. The roadmap is yours to use with any partner. If you want help with the next steps, we can take them with you.

What happens to our data?
We only use data you approve, under an NDA and, where needed, a data processing agreement. We tell you up front if any third-party AI service will see it, and nothing touches your live systems without your sign-off.

Is the proof of concept ready for production?
No. It proves the idea works on real or sample data. If you want to roll it out, we scope and cost the production version as a next step.

How does the free product work?
Choose any one live Burdenoff product. You get 90 days from activation with agreed seats and usage, no automatic paid renewal, and you can export your data at the end.
